About After Effects

After Effects is an application for visual effects, motion graphics and compositing in 2D and 3D developed and serviced by Adobe Systems.

After effects are used in post-production of films, Advertisement making, television broadcasting, travel film, titles and many more with smart video editing effects, rendering, compositing, motion tracking, keying, and animation.

All Photoshop, illustration, and Adobe formats are accessible for importing and editing them in the video.

This is a Bundle Course that includes complete in-depth After Effects Learning Courses combined into one Complete Course.

This Bundle perfectly meets the requisite of the industry and gives you a better chance of being hired as a After Effects professional.

1

Compositing using After Effects

Section 1. Concept of Keying

- Concept of Keying

Section 2. Color key

- Using Color Key
- Understanding Parameters of Color Key Tool
- Using Linear Color Key
- Using Color Range
- Luma keyer

Section 3. Keylight

- Introduction to Keylight
- Screen Gain Parameter Inside Keylight
- Analyzing Image Sequence
- Covering the Keyout
- Parameters of Keylight
- Analyzing the Color
- Creating New Composition
- Merging Characters
- Comparing with Background
- Creating Multilayer Key
- Importing Footage
- Working on edges

Section 4. Light Wrap

- Segment on Light Wrap
- Light Wrap effect to the Video Footage
- Matching the Edges with the Background
- Creating a Light Wrap
- Dividing Keying into Layers
- Creating Light Wrap on Keyed Element
- Keying and Preserving Shadow from Chroma
- Blending with Background by Using Flip
- Curves
- Importing PNG Sequence
- Tracking Motion of Chroma
- Keying and Inserting BG
- Linking BG to Track Data
- Compositing BG

1

Compositing using After Effects

Section 5. Color Correction

- Color Balance and Curves
- Change to Colour
- Color Splash
- Enhancing Footage
- Basic Day to Night Conversion
- Analyzing Shot for Advanced Color Correction
- Removing Sky
- Working with Color Correction Effects
- Using Level and Blend Mode
- Creating Light
- Motion Track
- Adding Inner Light
- Creating Fall off Light
- Adding window Lights

2

Rotoscopying using After Effects

Section 1. Importance of Rotoscopying and its Process

- Introduction to Rotoscopying
- Masking Different Shapes in Rotoscopying
- Importance of Rotoscopying and its Process

Section 2. Image and Footage

- Rotoscopying Using Image
- Rotoscopying Using Video Clip
- Creating Shape of Mask on Video
- Analyzing Shot and Customizing Timeline
- Drawing Shapes Through Pen Tool

Section 3. Frame

- Animating Head Shape Till 50 Frames
- Animating Head Shape Till 100 Frames
- Animating Body Shape
- Understanding the Mask Shape Parameters
- Merging Rotoscope Element

Section 4. Roto Brush Tool

- Mask Feather Tool in Roto Brush Tool
- Roto Brush Tool using Trim Comp
- Extracting Different Shape from Roto Brush tool
- Working with Roto Brush and its Parameters
- Working with Background Control in Roto Brush Tool
- Working with Roto Brush Tool on Characters
- Masking text on Character
- Extracting character for 60 Frames
- Refine Tuning the Rotomation
- Desaturating Background and Rendering
- Refine Edge Tool
- Working with Advanced Footage on Refine Edge Tool

Section 1. Introduction to After Effects Interface

- Introduction to After Effect
- Interfaces
- Interfaces Layer Editor
- Interfaces Effects
- Interfaces Transform
- Interfaces Basic Animation

Section 2. Starting a new composition

- New Composition
- Import Scene
- Colour Correction
- Hard Light Blend
- Background Colour

Section 3. Character Masking

- Masking
- Masking Van
- Rendering
- Tracking
- Tracking Blur

Section 4. Text animation

- Chroma CC
- Chroma Keylight
- Text Animate
- Animate Blur
- Text Animate Close
- Text Animate Graphic

Section 5. Working with Images

- Camera Info
- Import Images

Section 6. Camera view and animate

- Camera View
- Camera Animate
- Capture Depth of Field
- Mo Gra Imp Images

Section 7. Black strip animate

- Black Strip
- Black Strip Animate
- Mobile Apear
- Back Strip Devide

3

Adobe After Effects Course Training

Section 8. Splash animation & Puppet animation

- Splash Animation
- Puppet Animate
- Mask Yelow

Section 9. Apps animation

- Apps Anm
- Apps Slide Animate
- Final Render

Frequently Asked Questions

To know this difference you should pursue the course to experience the difference, for example, review a few videos which are available before and after After effects making.

Customer Reviews

“

Like the courses & its structures very helpful & easy to understand. Adobe After Effects course is really interesting, would recommend this course for people who want to learn about video editing. The After Effects training cover more all option which is available in video editing and make it a perfect course. looking for more interesting designing & video editing courses like this in the future.

Pramod Kumar

”

This After effects course is the best one for motion graphic, VFX, Video effects, compositing and feel. The curriculum has all set of properties available in after effects. This course at right time added values to me. I would recommend this after effects training to my colleges.

Diana Brooks

”

Had valuable time for up skilling with after effects. I could really compare myself after learning the course. The effects, keying and framing of videos bites is quite interesting. The After Effects course has reasonable time and successful technical learning on the interface with the examples of real-time use age of after effects is well explained.
