About CBAP Training

CBAP is a professional certification which is provided to business personals and individual who have an idea about business analysis or who wants to step into the business analysis field.

As a part of the exam, the practitioners need to analyze the situational analysis case study in three-and-half-hour.

Once the practitioners successfully complete the exam they will be awarded the CBAP certificate.

Customer Reviews

“

I really enjoyed a lot this course. It provides a great recap of business analysis theory as well as advanced overview- business analysis planning and monitoring, elicitation, requirements management and communication, enterprise analysis, and requirements analysis. I recommend it as a preparation for CBAP or PMI-PBA.

Rostyslav Haleliuk

”

A very comprehensible approach for people looking to understand business analytics. The course does not only prepare for Certified Business Analysis Professional Exam but also offers a very comprehensible approach for people just looking to understand business analytics. Intensity and quality of the presentation material are good to follow.
