## Course Features

Course Duration- 9+ Hours

Number of Courses

Verifiable Certificates

Lifetime Access

Technical Excellence

# About Nuke

---

A famous and commonly used television and film post-production application is Nuke. Basically, it is a node-based digital compositing application.

Nuke is a node-based application and works on node graph layout. This behavior of Nuke makes working with Nuke transparent and non-destructive.

Nuke works amazingly and blends effortlessly with other software such as Maya, Mari, and Houdini.

# Nuke Course

---

This is a Bundle Course that includes complete in-depth Nuke Learning Courses combined into one Complete Course.

This Bundle perfectly meets the requisite of the industry and gives you a better chance of being hired as a Nuke Learning professional.

# 1

## Nuke:01 – Beginners

### Section 1. Working with channels

- Viewing channels in the viewer
- Create new channels
- Shuffle node
- The copy node

### Section 2. Initial steps in using Nuke- Interface

- Work with curve editor
- Navigate through curve editor
- Using dope sheets
- Keyframe animation
- Adjusting node parameters
- Using property panels

### Section 3. Introduction

- Interface
- Introduction

### Section 4. merging images

- Merge node
- Keymix node
- Addmix node

### Section 5. COLOR CORRECTION

- Color scope
- The grade node
- The color correct node
- Color lookup node

### Section 6 .TRANSFORMING IMAGES

- The transform node
- The cornerpind
- The mirror node
- The position node

### Section 7.Working with channels

- Reformat node
- Crop node

## Section 1. Introduction

- Nuke Introduction

## Section 2. Work Space

- Nuke Work Space
- Work Space Preferences

## Section 3. Toolbar

- Work Space Toolbar

## Section 4. Using Nodes

- How to Select the Nodes
- How to Clone a Code
- How to Customize the Node Display
- Understanding the Properties of Panel
- Using Animation keys
- Viewer and Playback Controllers

## Section 5. Layers and Channels

- Layers and Channels

- Learn Basic Compositing
- Properties Ramp
- Properties Read
- Display the Image in Viewer Window
- Connect Image Manually
- Working on High Resolution Images
- Working on Merge Option
- Color Correction

## Section 7. Tracking and Stabilization

- Tracking and Stabilization
- Auto Tracking
- Track Next
- Transforming Mask
- Use Merge Node

## Section 8. Keying

- How to Select the Nodes
- How to Clone a Node
- How to Customize the Node Display
- Understanding the Properties of Panel
- Using Animation keys
- Viewer and Playback Controllers

## Section 9. 3D Integration

- 3D Integration
- Working on Camera
- Merge the Object Together
- Move and Rotate Camera
- Work with Geometry 3D Object
- Add Lighting Effect

# Frequently Asked Questions

---

Do i need to learn scripting to study this program?

No, Not at all. This Nuke Course does not only focus on the scripting part but also teaches a lot of animation techniques to the students. Scripting is a part of Nuke workings but the programming is very simple and easier to get.

How will this training help me in the future prospectus?

This Nuke Course Online is designed for students and learners who want to make careers in the field of Digital Compositing and Animations. If you choose to learn Nuke using this course, you will not only benefit your skills but also obtain command over the various methods and process of Digital compositing, which in turn will automatically open many career opportunities

# Customer Reviews

“

The course was well explained and taught composing in details. This was a great opportunity for me to learn something i am so passionate about and wish to make a career in. Thanks.

Joseph

”

It was very good learning. I got to learn new techniques that I wasn't aware of earlier. These courses available online gives us a lot of opportunities to explore things without any hassle of going somewhere. This was a good quality teaching.
